

AUDITOR MOVES TO SET UP NEW RELIEF MACHINE

Program Becomes Law With Signature of Gov. Davey

INVESTIGATION FIRST BIG JOB

Will Act to Eliminate All Ineligibles From State Rolls

(By Associated Press)
COLUMBUS, July 12.—The state auditor's office moved swiftly today to put into effect a new poor relief program that became law with the signing by Gov. Martin L. Davey of measures passed by the recently adjourned special session of the legislature.

State Auditor Joseph T. Ferguson, who with a yet-to-be-appointed director will compose a newly-created state relief administration, said that the machinery would be in full swing by the first of August.

Investigation First
"It will take but little time to get straightened up," he said. "Our first big job will be to investigate all relief cases and eliminate the ineligible from the rolls."

Governor Davey has not yet indicated whom he will appoint to the \$400-a-month post of director, but capital sources said that J. Freer Bittinger of Ashland and Roy L. Wildermuth of Columbus had been mentioned as possibilities. Wildermuth was chairman of the old relief commission that expired in April, 1937, and since has served as a deputy tax commissioner.

The governor approved the relief program, which provides \$12,000,000 for the remainder of this year, late yesterday. Of the 10 bills he signed, eight applied to poor aid and public works and the other two set up a state institutional building authority, increased the salaries of state highway patrolmen \$5 a month, and provided that highway department laborers be paid flat monthly salaries rather than by the hour.

Principal Measures

The principal relief measures were:

Extending utility, admissions, beer, mail and work taxes through 1941 and permitting counties to issue bonds this year in anticipation of 80 per cent of the revenue estimated to be available \$7,204,700 to 24 needy counties, which must match the state grants dollar for dollar; authorizing local governments to issue notes in anticipation of their 1939 share of liquor and beer permit fees, estimated to make available \$5,000,000 for matching state grants; setting up the state relief administration; permitting local governments to deduct from the taxes owed by land-

Dr. Butler Thinks Dewey Should Stay

NEW YORK, July 12.—Dr. Nicholas Murray Butler, president of Columbia university and a Republican politician for a half a century, said today Thomas E. Dewey should be retained in office as New York district attorney and not "induced" to run for any higher office in the near future.

Returning from Europe on the S. S. Normandie, Dr. Butler declared: "Under no circumstances should Dewey allow himself to run for governor or president or emperor, or anything else. He should be kept to clear up the city and make it a different place for our children to grow up in."

Dr. Butler also said that, because of President Roosevelt would be elected to a third term in the White House.

ROOSE IS HIGH IN TRAPSHOOT

Breaks 159 targets in Succession at Kohn-Yuut Indian Event

Competing against many of the nation's leading marksmen, Dr. G. A. Roose of Salem finished among the leaders in the Kohn-Yuut Indian trapshoots at Conneaut Lake, Pa., last Friday, Saturday and Sunday.

Dr. Roose, who was one of five Salem shooters to participate in the Kohn-Yuut events, was second high in all classes for the three days, missing out on a tie for high gun by only one target.

Breaks 159 in a Row

The Salem physician's performance included the breaking of 159 targets in succession. He shattered 100 straight to win one event and went on to break 59 in a row before missing in another shoot. Three trophies were awarded Dr. Roose Saturday for finishing first in the 100-bird, 16-yard event and the 100-bird handicap shoot and for having high gun for the day in all classes.

Nathan C. Hunt, who competed in a higher class than any of the other Salem shooters, also shot in good form. Hunt had a string of 129 straight hits, including 97 in succession in one event and 32 in a row in another.

Hunt was third in the 16-yard and handicap events in the Class B division on Friday and finished in the same position in the Class A shooting on Sunday. On Saturday, Hunt had a score of 99 in a 100-bird event to cop first place.

Will Receive Awards

Both Hunt and Roose will receive awards from the American Trapshooting association for their performances in breaking more than 100 birds in succession.

Mrs. G. A. Roose displayed exceptionally good shooting in taking second place in Class B on Saturday with scores of 87 in the 16-yard event and 94 in the handicap shoot. She also shot an 88 during one of her rounds.

First place in the Class D division of a 100-bird shoot on Sunday was won by C. S. Chisholm of Salem.

The Salem shooters will participate in the fourth of a series of inter-city shoots between members of Salem, Youngstown and Franklin, Pa. gun clubs at Youngstown Sunday.

Machinery Truck Piles Up In Ditch

A truck-trailer, loaded with 10 tons of used machinery, was demolished when the vehicle piled up in a ditch along Route 224, two miles east of Deerfield, shortly after midnight.

The driver, James McKee of Grand Rapids, Mich., worked with a crewbar to extricate his brother Robert, who was pinned in the cab. He was the only one injured, suffering a badly bruised knee and a hand laceration.

Luckily, the truck did not catch afire after the crash. Corp. W. E. Arey and Patrolman James White of the Metropolitan Police said the tractor, owned by the Interstate Motor Freight, was a total loss. McKee said he got off the road after being blinded by the lights of an approaching car.

Amnesia Victim Is 'Brought Back' By Auto Crack-Up

It took an automobile accident to bring H. N. Foster, 54, of Brownsville, Pa., out from under an amnesia spell.

After Foster's car left the road and upset on Route 45, three miles south of Salem, at 5:25 p. m. Monday, he told Corp. W. E. Arey of the highway patrol that the last thing he remembered was making the turn at the corner of E. State st. and S. Lincoln ave. to proceed south.

He told the officer he couldn't recall a thing after that.

His wife, who was with him in the car, said he drove normally until reaching a point in the road near Sheen's filling station.

He was treated at Salem City hospital for shock. Mrs. Foster received an abrasion to her right knee.

FDR PUSHING ON INTO COLORADO

Arranges Day of Sight-Seeing and Little Work

(By Associated Press)
ABOARD PRESIDENT ROOSEVELT'S TRAIN ENROUTE TO SAN FRANCISCO, June 12.—President Roosevelt, none the wiser from a rain drenching, pushed on today into Colorado's Rocky mountains.

The President arranged for a pleasant day of sightseeing and little work. Easing down on speech-making as he travelled westward on his transcontinental tour, the chief executive scheduled only one train platform speech, that at Pueblo, Colo.

His address last night, at Amarillo, Texas, Ellwood park was delivered in a driving, wind-blown rain. The President, spurring a rain coat, stood hatless facing the storm.

He interspersed a talk on farming and water conservation with jests on the rain. More seriously, the President said at the end of his speech:

"I think this little shower that we've had is a mighty good omen." That remark, coming while the rain soaked the President to the skin and blew so hard in his face that his eyes were squinted, brought a roar from the Amarillo dust bowl crowd.

Speeding onward from that Texas city, White House officials aboard the presidential special train announced Gov. Teller Adams and Sen. Alva B. Adams and Edwin C. Johnson of Colorado would greet the President at Pueblo.

Judge Benjamin C. Hilliard of the Colorado supreme court wired Mr. Roosevelt regrets that he would not be able to welcome him at Pueblo. Hilliard, who is opposing

"PORK BARREL" BILL IS VETOED BY GOV. DAVEY

Columbiana Will "Lose" \$5,000 Appropriation For Guilford

EXPENSE MEASURE IS KILLED ALSO

Governor Says He Is "In Sympathy", But State Hasn't Funds

(By Associated Press)
COLUMBUS, July 12.—Gov. Martin L. Davey, declaring the state's general revenue fund should not be subjected to the "strain," vetoed today two legislative appropriation bills containing approximately \$1,245,000.

"Pork Barrel" Killed
One was the so-called "pork barrel" measure carrying about \$645,000 for 14 projects. The other appropriated \$600,000 to reimburse counties for expenses incurred in the transportation of prisoners to the state penitentiary and reformatories.

Of the "pork barrel" bill, the governor said: "I am in sympathy with most of the projects, but the general revenue fund should not be subjected to the strain of nearly a half million dollars additional load."

"There is little to spare for the next few months, but there will be a modest surplus in the last half of December and not until then."

Calls Bill Stupid
Many of the departments and divisions will be out of money by November and can not operate because of the stupid and ignorant nature of the senate appropriation bill of 1937."

The governor added that "if there is any further surplus, the public school fund will need a large amount."

"The 'pork barrel' appropriations included \$10,000 for development of land at headwaters of Mill creek in Mahoning county, and \$5,000 for Guilford lake, Columbiana county."

Green Is Opposed To Administration Of Labor Measure

ATLANTIC CITY, N. J., July 12.—William Green, president of the American Federation of Labor, told the Glass Bottle Blowers' association yesterday that his organization was entitled to all credit for enforcement of the Wagner labor relations act but didn't like the way it was being administered.

"There was no dual labor movement in the United States when the Wagner act was inaugurated," he said, "and no loud-mouthed representatives of the dual movement can claim any of the credit."

Green praised the purposes behind the Wagner act but expressed regret it had been applied many times "in a way we never dreamed of—out of accord with its letter and its spirit."

"It is the intention of the AFL," he said, "to mobilize its political strength in a determined effort to amend this law so that it shall become the real act that it was sponsored and approved by the AFL."

Mrs. Bigham was shot, Whitehart said, while walking home from the home of a neighbor, Justice of the Peace William Robinson, an uncle of the dead youth. Young Robinson had left his uncle's home a few minutes earlier, taking with him a rifle he said he was going to use to shoot a hawk.

THE POWER OF AN INTELLECT

When Benjamin N. Cardozo was a student in Columbia university one of his professors said he was capable of writing the most powerful English since Alexander Hamilton.

Without taking formal instruction in law, he became one of the world's greatest jurists, winning wide recognition for the opinions he wrote as a member of the New York state supreme court and the New York court of appeals.

When he was appointed to the United States supreme court in 1932, his selection was acclaimed universally as a credit to President Hoover. Though he had gained a reputation for liberalism, there was no cause for anyone to be fearful of what he might do, as is the case so often with liberals whose philosophy is built merely on the inclination to dissent from conservatism, without knowing why.

Justice Cardozo's liberalism was the carefully reasoned position of a brilliant, balanced mind. It did not lean on prejudice for support. It was not like so much of what currently passes for liberalism, which is only a cloak of respectability for a reckless approach to established principles and an easy willingness to be generous with the public's money.

There is nothing in the record of man's mental ascent which so encourages belief that further progress is possible as the power of an intellect like Justice Cardozo's to determine the course of human events. His triumph in living was to achieve power in the one way which guarantees the permanency of power—the mastery of ideas. Such men—and how rare they are!—are the soul of civilization, which without them would be little more than a jumble of things without meaning.

Justice Cardozo's successor on the bench will be a liberal. It tells something about the confusion of the times to say it probably is beyond the power of the present professedly liberal administration to find a worthy successor.

WHOSE CIVIL LIBERTIES?

One of the heartening proofs that civil liberties are taken seriously in the United States is the fact that Mayor Hague of Jersey City has been dodging brickbats from both the left and right for his high handed methods of red routing.

It has been evident, of course, that some of the leftists doing the most yelling weren't interested in free speech, except for themselves, but that has not deterred many persons smart enough to see through the ruse from making the same complaint.

It so happens that the other day NLRB handed down a decision that an employer had violated the Wagner act because he distributed among his employees a copy of a speech by Rep. Clare E. Hoffman of Michigan. Rep. Hoffman is a sharp critic of the Committee for Industrial Organization and NLRB.

The board's decision is based on the contention that it is a crime to attempt to influence his employees, even though in so doing he may be using nothing more direct than the words of a United States congressman. The case must be carried to the supreme court; unless the board's ruling is set aside, it will have trespassed openly on civil liberties.

In the meantime, what is that sudden stillness? It is the red hots who believe in free speech for themselves not defending the right of a hapless employer of labor to circulate copies of a congressman's free speech among his employees.

THE IMMEDIATE RULERS

Let us not be afraid to help each other—let us never forget that government is ourselves and not an alien power over us. The ultimate rulers of our democracy are not a president and senators and congressmen and government officials but the voters of this country. (From President Roosevelt's Marietta speech).

True, the ultimate rulers of America still are the voters of this country. Government is not an alien power. It will not become an alien power so long as it continues to be responsive to the people, who create it and sanction it.

The chief threat to responsiveness at present is a

constantly growing bureaucracy of appointive officials and underlings under no obligation to be responsive to anyone but the person who put them on the government payroll—and not even to them in all cases.

Some of these officials—the three members of TVA, for instance—have been given wide discretionary power which they can abuse, if they are so inclined, to the end of carrying out policies never sanctioned by congress, nor by the constituents of congressmen.

The effect in such cases is to make appointive officials the immediate rulers of democracy. The ultimate rulers—the voters of the country—have been isolated from management of their affairs to the extent that they have lost control over that portion of public affairs administered by executive commissions.

THE STARS SAY:

For Wednesday, July 13.

Some rather fair prospects, presaged to materialize on this day, may require the utmost tact and discretion, as well as watchfulness for intrigue, confusion or a possible sinister phase. Yet, business and work should prosper and speculation may bring fortunate results.

Those whose birthday it is may be assured of a year of most definite progress and prosperity, with finances increasing and speculation offering some prospect of gain. But there is need for alertness to a doubtful, confused or treacherous situation, which might be baneful or sinister.

A child born on this day may be capable and ambitious, with the prospect of important projects and large profits, in which there might be the element of subtlety, diplomacy or stratagem best furthering its expansive ideas.

ATLANTIC RACE FOR FIRST AIRLINE NEAR START

NEW YORK.—The international race among nations for commercial air supremacy of the North Atlantic is nearing a getaway with the resumption of experimental flights over routes which eventually—possibly by fall—will be traversed regularly by planes carrying passengers, mail and cargo.

For years aviation companies of five nations have been jealously watching each other's designs on the North Atlantic. Each is hopeful of beating its rivals to establishment of air service over what, from the viewpoint of nationalistic prestige, is the most important route in the world.

Engaged in the race to be first to bridge the North Atlantic commercially by air are Pan-American Airways of the United States, and the following government-subsidized companies of foreign countries:

Imperial Airways, commissioned by the British government to establish an empire route connecting England, Ireland, Newfoundland, Canada, and the United States.

Air France Transatlantique, subsidized by the French government to the extent of \$5,000,000.

Deutsche Luftansa of Germany.

Service by Mail Possible Theoretically, Pan-American and

Imperial Airways are neck and neck at this stage of the race, and it is possible that each will be in the air by autumn, carrying mail and passengers between England and New York.

The Germans have made the most survey flights and have obtained permission to make more from Lisbon, Portugal, via the Azores, to America.

The Germans, French and Italians already have established mail services across the South Atlantic, but Pan-American, with its South American and Pacific lines, has the most ocean-flying experience.

Both the American and British companies have obtained full commercial flying rights over both North Atlantic routes—via Southampton, Eng., Foynes, Ireland; Botwood, Newfoundland, and Canada to the United States, or via Portugal, the Azores and Bermuda. The others, have or are in the process of obtaining experimental rights only.

Pan-American is testing at Seattle the 42½-ton Boeing 314, the first of six Atlantic Clippers, designed to carry 50 passengers, and a ton of mail and cargo on 30-hour schedules. Theoretically, Pan-American will be ready to inaugurate full Atlantic service with the delivery of the first plane, expected by the end of summer.

Get-Rich-Quick
Movie Scheme Ends
In Jail For Pair

(By Associated Press)

LOS ANGELES, July 12.—A get-rich-quick scheme, by which Movie Producer Louis B. Mayer's name was forged to \$50,000 in promissory notes, led to jail cells today for two of his employees at M-G-M studio.

George Donald Smart, obscure recorder, and Layne Britton, make-up artist described by officers as Smart's unwitting tool in a fantastic two-year swindle, were held on suspicion of forgery, graft, theft and conspiracy.

Names of film celebrities such as Nelson Eddy, Jeanette MacDonald and Charles Laughton were "sucker bait" in Smart's confessed career of frenzied finance, the district attorney's office reported.

As related in the confession, Smart set himself up in 1936 as "Mr. Mayer's confidential representative." His front was a forged letter, saying he was to negotiate special contracts with M-G-M stars.

For getting them to agree to quit M-G-M, if Mayer should resign, Smart claimed he was to receive 10 per cent of their salaries as commission.

To forestall inquiries, the sound man told prospective victims that "Mr. Mayer will positively deny any connection with the matter" if approached.

Baby Needs Proper Diet
During Summer Period

By LOGAN CLENDENING, M. D.

THE OLD DREAD that mothers had of the baby's second summer is fast disappearing. There is no reason for it any more.

Tradition had it that the second summer is very critical and that the baby must be sick some time in that period. But the situation has changed, and, as a matter of statistics, the summer months show less sickness for those under five years of age than any other part of the year.

None of us needs as much food in the summer, and this includes the baby. "Less to eat and more to drink in the summer time" is the slogan of a wise old practitioner of my acquaintance.

The summer is a fine time to let the skin get acquainted with the air. Take all the baby's clothes off and let it roll around in the good air and sunshine on these warm days.

Fruit juices are important foods and should be added liberally to the diet of any baby during the first and second summer. Any fruit is all right, but oranges and tomato juice have the best supply of Vitamin C. A half cup to a cup of tomato juice or the juice of a large orange every day is the proper ration. Sweet oranges to which no sugar has been added should be used. Before the orange is cut it should be dipped into boiling water and wiped with a clean cloth so that no germs get into the juice when it is squeezed.

Try Cool Water
The best preventive of overheating is cool water. Two or even three baths — without soap, of course — are not too much in hot weather. The stimulating effect of the cool bath is enhanced if it is thrown with some force on the body. So water from a hose or sprinkled on from a watering can is most refreshing.

In its second summer the baby

begins to show some will power and selection about its food. It is more liable to eat irregularly. From this it becomes sick. Someone says, "Yes, naturally, it is sick; this is its second summer." It is the wrong food, or food eaten at irregular intervals and not the second summer that is at fault.

In fact, with all the improvements of modern life, the young mother should welcome rather than dread the second summer.

Editor's Note: Seven pamphlets by Dr. Clendening can now be obtained by sending 10 cents in coin, for each, and a self-addressed envelope stamped with a three-cent stamp, to Dr. Logan Clendening, in care of this paper. The pamphlets are: "Three Weeks' Reducing Diet," "Instructions for the Treatment of Diabetes," "Reducing and Gaining," "Infant Feeding," "Feminine Hygiene" and "The Care of the Hair and Skin."

Double-Duty Frocks Chic

Just the Thing to Wear for Shopping Tour and Dinner Downtown

By MARIE MAROT

INTO the life of almost any gal there comes a day when she has to fare forth in the daytime dressed for a "date" dinner. Then comes the query, the flurry—what to wear? She can wear a sheer silk chiffon or net or marquisette, or perhaps a paperweight taffeta. But what of the more mature woman who wants to go into town, do some shopping and meet friend husband for a special dinner afterward? Well, here are a couple of frocks that should help to make the right choice. Both are sheer, rather tailored, yet dressy models that are just the thing. And both are designed for the woman who may be any size from 36 to 52. Both frocks have long waistlines, sleek hiplines and nice V necklines. Skirts flare without giving the illusion of extra poundage. At top is a lovely sheer fabric, mounted on a taffeta slip. It comes in navy or black, trimmed with grosgrain ribbon and buttons. Below is a rayon thread lace frock and bolero, in light blue or navy, black or beige.

CHICAGO GRAIN
 CHICAGO, July 12.—Wheat
 prices in Chicago averaged lower
 early today. Buyers apparently
 were inclined to hold off awaiting
 announcement of terms for United
 States government wheat loans.

 Chicago wheat futures soon showed
 a general decline. Corn started un-
 changed to 1/4 cent up, July 59 1/2,
 September 60 1/2-3/4.

DISCUSS WHEAT LOAN PROGRAM

Provisions Expected To
Be Announced In
Few Days

WASHINGTON, July 12.—Federal
 farm officials began drafting details
 today of a wheat loan program
 made mandatory by the forecast of
 a near-record crop.
 Although provisions will not be
 announced for a few days, it gener-
 ally was expected the loans would
 be about 59 cents a bushel, the
 minimum allowed under the new
 crop control act. The maximum is
 about 85 cents.

The loans can be obtained by
 farmers who wish to store their
 wheat until prices improve. They
 are required by law whenever the
 July estimate of production exceeds
 normal domestic and export needs
 of about 750,000,000 bushels.

Crop Reports
 The federal crop reporters pre-
 dicted yesterday a yield of 967,102-
 000 bushels, only 41,000,000 bushels
 short of the record 1915 crop.
 H. R. Tolley, agricultural adjust-
 ment administrator, said that stor-
 age of wheat under government
 loans was not the only method the
 administration expects to employ
 to combat the surplus problem.
 "We've got to export a lot of
 wheat," he said.

A third step in the surplus re-
 moval program, he explained, will
 be promulgation this week of a
 program for a small wheat crop
 next year. Growers may be asked,
 he said, to plant only 55,000,000
 acres, compared with 79,500,000
 seeded for this year's crop.
 Farmers would have to abide by
 reduced acreage allotments in order
 to be eligible for wheat subsidy
 payments, which may total about
 \$130,000,000.

Whether the agriculture depart-
 ment will have a corn surplus prob-
 lem will be determined by weather
 conditions during the next three
 weeks. The crop reporting board
 forecast a yield of 2,482,102,000
 bushels. Officials said that if this
 estimate were borne out by the Au-
 gust report, it might be necessary
 to propose marketing quotas.

Crop Forecasts
 This is how the crop reporting
 board forecasts major crop pros-
 pects for 1938, compared with last
 year's production:
 Larger this year—Wheat, barley,
 rye, flaxseed, rice, hay, sweet po-
 tatoes, sugar cane, sugar beets, pears
 and citrus fruits.

Smaller—Cotton, corn, oats, po-
 tatoes, beans, tobacco, hops, apples,
 peaches and grapes.
 Supplies of most food crops ap-
 pear likely to be ample, the board
 said.

JENKINS SEEN IN SNELL'S JOB

Ohioans Speculate On His
Candidacy for Min-
ority Post

WASHINGTON, July 12.—Ohioans
 here speculated today on the pos-
 sibility that Rep. Thomas A. Jen-
 kins (R-Ohio) would become an
 avowed candidate for the minority
 leadership of the house of repre-
 sentatives.
 Reports the Ironton, O. member
 was considering such a step cir-
 culated almost immediately after
 the retirement of the veteran min-
 ority leader, Representative Snell
 (R-NY).

Jenkins, who decided several
 months ago to seek renomination
 after he had considered entering
 the contest for the Republican
 nomination for governor of Ohio,
 was absent from Washington when
 Snell announced he would not re-
 turn to his post next year.
 Informed Ohioans said, however,
 they had learned Jenkins might bid
 for the leadership, particularly if
 his colleagues became involved in a
 sharp controversy over a successor
 to Snell. The Ohioan is considered
 by friends a "middle of the road"
 Republican who has supported
 some of the social legislation of the
 Roosevelt administration.

Cave-in Fatal

CLEVELAND, July 12.—John
 Primar, 50, a pit worker, was killed
 yesterday when tons of clay, loosened
 by rains, caved in on him.

Not so long ago one of the principle topics of fem-
 inine conversation was about the latest Hollywood
 diet. Stars indulged their pet ways of reducing
 and the whole thing was quite a game. The tide
 has turned now, however, and the headlines of
 filmdom are no longer shying away from food like
 they once did. In fact, so impressive has it become
 for one of these celluloid charmers to avoid thin-
 ness, that the studios have ordered six celebs to
 put on weight. Among those who are now trying
 to tip the scales a bit more are Bette Davis, who
 was told to gain eight pounds; Wendy Barrie, 9;
 Olivia De Havilland, 8; Ann Sheridan, 12; Marie
 Wilson, 6; Anita Louise, 10.

OKLAHOMA VOTE TEST AWAITED

Democrats Write Answer
To Roosevelt Recom-
mendations

(By Associated Press)
 OKLAHOMA CITY, July 12.—
 Oklahoma Democrats, urged by
 President Roosevelt to nominate
 liberal candidates, wrote their an-
 swer on ballots in today's primary.
 When the votes are counted Mr.
 Roosevelt will be able to check the
 effect of the pat on the back he
 gave Sen. Elmer Thomas, seeking
 a third term.
 The election was the first test
 at the polls since the President
 started his western tour through
 states where administration sen-
 ators are up for renomination. He
 also has given verbal pats on the
 back to Senators Barkley of Ken-
 tucky, the Democratic leader, Bul-
 kley of Ohio and Caraway of
 Arkansas.

Record Vote Seen
 A record approaching 600,000
 Democratic votes was forecast be-
 cause of intense interest in the
 senatorial and gubernatorial races,
 in which Mr. Roosevelt took a
 hand.

In his Oklahoma City speech
 three days ago, the President said
 Thomas had been of "enormous
 help" to the administration. He
 added a kind remark for another
 senatorial aspirant, E. W. Marland,
 New Deal governor. But Thomas
 claimed the stronger favor. Mr.
 Roosevelt called him "my old
 friend."

The President had no such back-
 pat for Rep. Gomer Smith, the
 third senatorial candidate. Smith
 voted against the President's re-
 organization bill and the adminis-
 tration farm bill.

Without mentioning names, Mr.
 Roosevelt cracked down on former
 Gov. W. H. "Alfalfa Bill" Murray,
 a candidate for the office he left
 in 1935. Murray opposed the 1932
 Roosevelt nomination and has
 fought the New Deal since.

Hits "Carpet Bagger"
 Without referring to the Presi-
 dent, Murray said in an address
 last night:

"If (the governorship) is an
 appointive office, I don't want it.
 I don't want to be a carpet bagger
 any time, anywhere."

Opposing Murray were four ac-
 knowledged New Dealers—W. S.
 Key, former state WPA adminis-
 trator; Leon C. Phillips, former
 speaker of the state house, former
 Gov. "Iron Jack" Walton and Ira
 Finley, president of the Veterans
 of Industry of America.

A statewide Republican "grass-
 roots" convention endorsed Ross
 Ritzley, Guyton attorney and
 former state senator, for nomina-
 tion as governor and Harry O.
 Glasser, Enid attorney, for senator.

Excursion Steamer Is Freed From Mud

NEWARK, N. J., July 12.—Some
 1,400 men, women and children
 reached their homes in the early
 morning today after dancing and
 singing through three thrilling
 hours aboard the excursion steam-
 er Americana, grounded on mud
 flats within sight of this city.
 While searchlights ashore pierced
 the night, six tugs and a Newark
 fire boat strained at tow lines and
 finally freed the steamer in City
 channel at Port Newark. Then the
 passengers, returning on an all
 day outing of the Newark health
 department to Rotan's Point,
 Conn., landed safely.

Girdler, Purnell Invited To Parley

(By Associated Press)
 WASHINGTON, July 12.—Tom
 Girdler, Republic Steel Corp. chair-
 man, and Frank Purnell, Youngs-
 town Sheet & Tube Co. president,
 were invited today to an informal
 labor department discussion July
 20 on what minimum wages must
 be paid by steel companies having
 government contracts over \$10,000.
 The Ohioans and other leading
 steelmakers, together with Philip
 Murray, chairman of CIO's Steel
 Workers' Organizing Committee,
 were invited as an "advisory panel,"
 meeting five days before a public
 hearing.

Under the Walsh-Healy Public
 Contracts Act, such companies are
 required to pay the minimum
 wage prevailing in the industry,
 and the public hearing is to de-
 cide what those prevailing rates
 are.

FDR'S WEAPON MAY BE TURNED

Southern Senators Quote
President On Expe-
rience Angle

(By Associated Press)
 WASHINGTON, July 12.—Presi-
 dent Roosevelt has whetted a sharp
 weapon which may be turned
 against him by southern senators
 who have an administration black
 mark beside their names.
 Advocating the renomination of
 Senate Leader Barkley of Ken-
 tucky, the President drew a line
 between experience and inexperience
 in the senate. He spoke of the ad-
 vantage that knowledge and years
 of service give an old-timer over a
 newcomer.

Tight rules of seniority govern
 both house and senate. By the
 mere process of being elected time
 after time, a man may move nearer
 the head of committee tables. Each
 move gives him a stronger voice in
 legislation.

Senators George of Georgia and
 Smith of South Carolina—two of
 three anti-administration southern
 Democrats up for renomination—
 have been in the senate longer than
 Barkley. The third—Tydings of
 Maryland—was sworn in on the
 same day as Barkley.

Although Mr. Roosevelt has given
 no direct indication whether he
 will speak against any of the three
 during his transcontinental trip,
 New Deal candidates are running
 against all of them in the state
 primaries.

The natural argument that falls
 into the hands of the southern sen-
 ators is: If experience and prestige
 are valuable assets for a senator
 from Kentucky, are they not equally
 valuable for a senator from Georgia,
 or South Carolina, or Maryland?

The natural reply for their op-
 ponents is: Mr. Roosevelt obviously
 was referring to experience which
 makes possible greater cooperation
 with the administration in putting
 across its program. Furthermore,
 seniority rules sometimes have been
 criticized because they do not con-
 sider the ability of an individual
 legislator.

Halt Dealers

WASHINGTON, July 12.—The
 Agricultural Adjustment Adminis-
 tration announced today it would
 seek permanent injunctions against
 three dealers accused of violating
 a government order regulating milk
 handling in the Cincinnati market-
 ing area when their cases are heard
 in federal court Oct. 4. The dealers
 are August Meyer of Lockland and
 John Krechting and Mary W. Willet
 of Cincinnati.

Coach Will Play

SEBRING, July 12.—McKinley
 High school has received recogni-
 tion in the form of the selection
 of its newly chosen football coach,
 Clinton Heacock, to play with the
 Shrine Hoecake All Stars in a
 charity game with the Chicago
 Bears, professional eleven, at
 Providence, R. I., Sept. 1.

WON'T DISCHARGE JOHN J. JASTER

Governor Davey says He'd
"Rather Lose" His
Right Arm

SANDUSKY, July 12.—Gov. Mar-
 tin L. Davey stamped as "absolutely
 false" today rumors that he might
 discharge John Jaster, state high-
 way director.

Davey asserted the recent find-
 ings of the board of college profes-
 sors he named to inquire into the
 highway department were "over-
 whelmingly good," and said of
 Jaster:

"Completely Innocent"

"He is one of the most capable,
 conscientious and honorable men I
 have ever met in public life. He is
 completely innocent of any wrong
 and has made the highway depart-
 ment twice as good as it ever was
 before."

"I would not be guilty of throw-
 ing an innocent man to the wolves
 under any circumstances. I would
 rather cut off my right arm than
 do such a cowardly thing."

Davey's remarks, made last night
 in his weekly radio address, were
 followed by another talk at a San-
 dusky Democratic rally.

The governor pointed out that
 tolls around Sandusky bay bridge
 had been reduced from 50 to 25
 cents in his administration, and

said: "I don't know how many quar-
 ters that saved you folks, but it
 ought to be worth some votes."
 He told his radio listeners he had
 no connection with what the board
 reported apparently was collusion
 in bidding by paving contractors
 selling "hot-mix" for state roads.

Blames Contractors
 "These contractors," he stated,
 "are private citizens. If they have
 committed any offense they and
 they alone will have to be responsi-
 ble. The highway department is
 not involved and the governor of
 Ohio is not even remotely connected
 with it, scurrilous cartoons to the
 contrary notwithstanding."

Davey said the board criticized
 only one out of 1,000 contracts and
 found that in thousands of pur-
 chases in every case the business
 was awarded to the lowest bidder,
 or one of the lowest.

He continued attacks on "enemy news-
 papers" which he said "should as-
 forgiveness for their sins."
 Davey and Charles Sawyer, his
 opponent for the Democratic gub-
 ernatorial nomination, and George
 White, candidate for the nomi-
 nation for U. S. senator, were ex-
 pected as speakers at a rally at
 Fremont tonight of the Sandusky
 County Democratic club.

PITTSBURGH CLUB BOASTS 12-GAME WIN STREAK

FOXX SETTING PACE FOR RED SOX FLAG BID

31-Year-Old Slugger Is Largely Responsible For Sox Climb

By LAWTON CARVER

NEW YORK—If the Boston Red Sox should win the American League pennant as some observers still insist they will, a large portion of the credit can be given to strapping, powerful James Emory Fox, better known as Jimmy.

He has been hitting his customary 300 or better right along, has been belting homers at such a pace as to keep himself well up in the race for the home run championship. He has been driving in runs in such flocks as to make it seem likely that he will wind up with this title too.

In a few words, he is enjoying one of his greatest seasons. Moreover, the Red Sox have in this 31-year-old veteran a player who figures to be helping them for several more years, although he has been in baseball 14 years and in the majors 12 years. He is durable, dependable and among the brilliant of the game, especially in power.

He was the American league's "most valuable player" in 1932 and 1933, and is another of those almost priceless stars which Connie Mack sent away from Philadelphia. He made his departure from the Athletics in 1935 along with Johnny Marcum, in exchange for a couple of lesser lights—and important money. Owner Tom Yawkey of the Sox, in fact, was reported to have parted with \$150,000 in cash in completing the transaction.

If Fox can continue at the pace he has been setting it will be in the nature of a comeback for him after his worst season since he came into the majors. He hit only 285 last year and with that fell to the lowest average he has known. Only once before has he failed to carry his hitting above .300, and he carried on at that same pace in three world series, through which his clip was a very vigorous .344.

Those who pick the Sox in the American league race, despite what seems to be a stronger team here and possibly a stronger one at Cleveland, apparently do so in the belief that finally the high-priced talent which Yawkey has brought together has begun to click as a unit.

And the Sox ought to do somewhat better than all right at that, with a lineup that includes Vasmataz, Caggin, Chapman, Higgins, and Dierck, along with good pitching, and the fast traveling aforementioned Fox.

They can't miss finishing in the first division, should do no worse than third, are strong possibilities for second and may actually crowd the Yankees and Indians right out of the pennant by way of giving Yawkey his first returns of consequence on some of the most lavish spending baseball has ever seen.

It is quite obvious by now that the American league race won't be a run-away this time regardless of which club wins—and in that kind of a finish anything can happen, especially if that Fox keeps on pounding the ball and the rest don't fold up entirely.

Outboard Races

CHICAGO, July 12.—The National Outboard Association today announced dates and places for the four divisional championships, the winners to qualify for the national championships to be held Sept. 17 and 18.

The central division championship will be held Aug. 26 and 27 at Marietta.

Ohioans Move Up

NEW YORK, July 12.—Don McNeill and Morey Lewis of Kenyon college moved into the fourth round of the New York state clay court tennis championships today, McNeill defeating Carlton Road of Brooklyn 5-7, 6-0, 6-1, and Lewis eliminating Jack Mahoney of Jackson Heights 6-1, 6-1.

AMERICAN LEAGUE GETS PITCHING

By PAT ROBINSON

NEW YORK, July 12.—The major league produced only half a dozen pitchers capable of winning 20 games last year. These were Gomez and Ruffing of the Yankees in the American league; Hubbell and Melton of the Giants and Fette and Turner of the Bees in the National.

The National produced only 23 300 hitters who were at least .300 in the American league, and only 17 regulars hitting .300 or more.

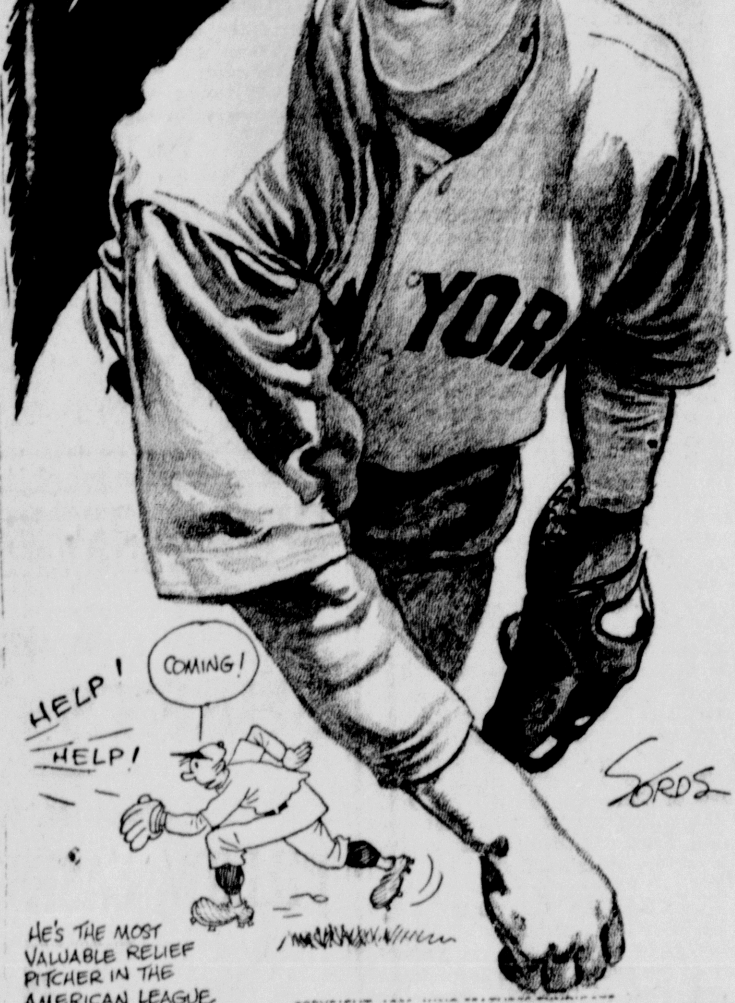

So far, so good. More good pitching with a natural drop in hitting.

But what about the American league? Here we find 10 pitchers who stand a chance of winning 20 games. Therefore, we should expect to find fewer 300 hitters. Instead, we find about 40 with a good chance of finishing with 300 averages.

There seems to be no explanation of this apparently strange state of affairs until we remember that while there have been a great many

Unknowns Share Top Honors In Golf Event With Champ

Frank Moore of Mamaroneck, N. Y., Cops Medal with Eight-Under Par Score In P. G. A. Tourney

By BILL BONI
SHAWNEE-ON-DELAWARE, Pa., July 12.—As much play began today in the national P. G. A. championship over the table-top fairways of the Shawnee Country club, defending champion Denny Shute topped the first quarter of the draw, with three lesser-known campaigners holding the other honor spots.

One of them, probably, never will do much better than the 138 he posted to tie for second place in the two-day, 36-hole qualifying round. He is blond Harry Nettelblatt, 36, of Framingham, Mass. Harry has qualified for match play twice before and has been bounced out each time in the first round. Even if he should get by his opening test against Johnny Kinder of Plainfield, N. J., he probably would run up against three-time winner Gene Sarazen this afternoon.

The other two, Frank Moore of Mamaroneck, N. Y., the medalist with an eight-under-par 136, and Marvin Stahl, the youngster from Lansing, Mich., who equaled Nettelblatt's 138, are in their competitive prime, and both seem ready to step out in earnest.

Neither is a youngster in golf. Moore, now 29, has had to travel in the shadow of his baseball-playing brother Terry until now. He began the game as a kid caddy in Memphis, Tenn.; spent five years as an electrical engineer in St. Louis, then came back to golf when engineering went sour in 1930.

Stahl, 28, began caddying at 11, was teaching as an assistant at 19, and for the last six years has been a full-fledged pro with his own club.

By hitting hard to face a Johnny Vander Meer or a Johnny Allen every day there would be no 360 batting averages.

The pitchers who seem the best bet to win 20 games this year are the aforesaid Vander Meer of the Athletics, Newson of the Browns, Grove of the Red Sox, Feller of the Indians, Ferrell of the Senators, Kennedy of the Tigers and Ruffing of the Yankees.

Others who stand a fair chance of making the grade are Lee of the Cubs, Nelson and Caster of the Athletics, Newson of the Browns and Wilson of the Red Sox.

Make Brown of the Pirates has already won 10 games in a relief role and he, too, must be accorded a chance, but he will have to be lucky as well as good to make the grade.

SHOCK-OGILVIE MEETING TOPS GOLF TOURNEY

Look Forward to "Battle Of Blondes" In State Women's Event

BULLETIN
PORTAGE COUNTRY CLUB, AKRON, July 12.—A second-round "battle of the blondes" became a certainty today as Miss Janet Shock of Dayton and Miss Eva Shorb of Massillon, Ohio's golfing co-eds, smothered first round opponents in the 19th annual Ohio women's golf meet and were paired for Wednesday's second matches.

AKRON, July 12.—Eight matches were on tap at the Portage club today in the quest for the 19th annual Ohio women's golf championship, but the gallery was looking forward to the possibility of another "battle of the blondes" between 19-year-old Janet Shock of Dayton and 20-year-old Eva Shorb of Massillon.

Miss Shock had Isabel Ogilvie of Cleveland, 1937 finalist, to dispose of today, while Miss Shorb had to push aside Mrs. John Pennington of Cleveland to make the "natural" possible.

The blonde co-eds, Miss Shock of Denison university and Miss Shorb of Wooster college, have met twice in fairway fights with the Dayton miss, only girl in history to win a place on an Ohio varsity golf team, victorious each time.

Miss Shorb is Akron district champion, however, and the betting around the Rubber City is that "Janet can't do it again."

Miss Shock won the medalist honors in yesterday's qualifying round with a 79, three over par, and then added the driving contest laurels to her list with a three-ball average of 202 yards. Her drive of 219 yards was the best of the day.

Here's how they teed off today in the opening round of match play, the figures in parentheses being the qualifying scores:

Miss Shock, Dayton, (79) vs. Miss Isabel Ogilvie, Cleveland (87).

Breezy Briefs Of Sport From Briezt To You

By EDDIE BRIETZ

NEW YORK, July 12.—News: Bill De Correvont, the Chicago football sensation, finally has caught up with his books and will be a sure starter for the Northwestern yearlings next fall. There'll be a September heavyweight fight all right, but don't ask who'll do the fighting. You're liable to see Baer, Pastor, Galento, Barlund and mebbe two or three others in the same ring the same night. We just got a fresh batch of rumors about an important coaching change on the Pacific coast.

Oddities: When two soft ball teams out in Toledo scheduled a game to start at 2 a. m. it made the front page of The Toledo Blade, which knows news when it sees it. The Gas House Gang (what's left of it) has two "Jersey Joes"—Stripp and Medwick—who is the gal who broadcasts Syracuse baseball games over station WYR? She knows her baseball, all right.

Today's tale one: The other night while Tom Sunkel was out there pitching his head off for Atlanta, thieves crashed his apartment and stole everything but the kitchen sink. Jack Troy, sports editor of The Atlanta Constitution, received a letter signed by a bird who said he was president of the Atlanta Burglars' association, denying any of his boys had anything to do with it. "No reputable burglar would steal a ball player's clothes, especially with him pitching like I seen him pitch Tuesday night," wrote the head burglar. "If I thought a guy in my association done it I would throw him out on his ear."

Ouch dept.: Billy Laval, scout for the Boston Red Sox, has the blues. . . best pitching prospect in Dixie is William Broome, 19, of Lockhart, S. C. . . his fast ball breaks twice and his strikeout record is amazing. . . he's been signed to a Red Sox contract for a year but won't budge although they've offered him almost everything except Tom Yawkey's yacht. . . the kid would rather stay at home, play semi-pro ball and make 12 bucks a week when not pitching, he fills in at third base and leads the league in hitting. . . what are you going to do with a guy like that?

Odds and ends: Babe Ruth has shed 14 pounds yelling on the Dodger coaching lines and has parked more than a dozen balls in the stands in batting practice. In announcing a coaching school to be held in Florida next year at which Bernie Bierman and Frank Thomas will be two of the professors, the press agent said: "Both are very well known in the coaching profession." . . we'll say they are! . . Tamulis, the Dodgers' lone southpaw, fairly "berls" when Ruth calls him "tomatoes."

Scoring in the contest was spread throughout every inning but the seventh. The Bulldogs collected 13 hits, while the Tigers hammered out 14 safe blows. Joe Nocera was the winning pitcher.

CLAIMS AMBERS WILL WIN OVER RIVAL FIGHTER

Lou's Style Believed To Be Better Than That Of Armstrong

NEW YORK, July 12.—"I expect a much tougher battle when I beat Lou Ambers for the lightweight title, because he moves around more than Ross and he's harder to catch up with."

So announced Henry Armstrong, recently crowned welterweight champion, after he won the title from Barney Ross.

This statement by "Homicidal Henry" provoked much speculation along Broadway as to the result of their bout on Aug. 10 at the Polo Grounds.

Forty hours Armstrong did partially speak the truth. Because 48 hours later, Al Weill, mentor of Ambers, concurred with the colored champion's opinion regarding Ambers' speed, but not as to the outcome. Defending his charge, Weill said:

"We're not afraid of Armstrong and we can win him, because Lou has the style. He'll be a moving target, hard for Armstrong to hit. And Lou really fights when the chips are down."

Thus we have a two-sided version as to what one can expect when Ambers defends his title against the possessor of the featherweight and welterweight diadems. If Ambers fails, the "Hurricane" will be the first fighter to sport three titles at the same time.

Most experts, even at this early date, are already sold on Armstrong. But some who dare to brew scowls and sneers are selling the Herkimer Hercules—for two reasons:

(1) Ambers really fights when the chips are down.
(2) There isn't a top-ranking pugilist, be he champion or not, who hasn't one outstanding bout in his system to stamp him permanently in the mind of the fans. How about these:

Jack Dempsey's famed bout with Luis Firpo, "Wild Bull of the Pampas."
James J. Braddock, a 10 to 1 shot, annexing the world's heavyweight title from Max Baer.

Max Schmeling's kayo of Joe Louis in their first meeting.
Jack Sharkey's defeat of Harry Wills, "Negro Menace" to Dempsey's crown.

Tony Canzoneri's decisive win over Jimmy McLarnin.
Ace Hudkin's knockout of New York's promising welterweight, Ruby Goldstein, Jack Delaney's defeat of Paul Berlenbach for light-heavyweight title. Joe Dundee's technical kayo of strong-hearted Mickey Walker.

Willie Jackson's kayo over Johnny Dundee, first rate pugilist of his day.
Fred Apostoli in defeating Freddie Steele, 160-pound champ.

Johnny Dundee defeating Bren-tonel, France, after breaking right hand.

Pirates, Yankees and Red Sox Playing Better Than Leaders

By HUGH S. FULLERTON, JR.

Disregarding the fact that the New York Giants and Cleveland Indians still are holding the lead at their respective leagues, it seems to be a good time now to keep close watch on the second and third place clubs of the two major baseball circuits.

For the past couple of weeks, the Pittsburgh Pirates, New York Yankees and Boston Red Sox have been playing, in general, much better baseball than the leaders.

Starting today in the American league and tomorrow in the National, there's another round of

George O'Brien and John Miljan in a scene from "Border G-Man", showing at the State tonight and Wednesday on a double bill.

The State theater's double bill tonight and Wednesday includes an English comedy and a western action story. The first film is "We're Going to Be Rich," starring Gracie Fields, Britain's queen of comedy; Victor McLaglen and Brian Donlevy.

The English comedy favorite sings six of the new tunes introduced in the picture in the style which has made her world famous.

The film includes "My Only Romance," by Pollack and Mitchell; "The Sweetest Song in the World," and a musical arrangement of "Trek Ferreira" by Harry Parr-Davies; "Oh, You Naughty, Naughty Men" by Will Haynes, Jim Harper and Parr-Davies; "Walter Walter" by Haynes, Harper and Noel Forrester; "Don't Ang My 'Arry" by Greatrex Newman, and "Ee By Gum" by Howard Flynn and Ralph Butler.

Still Going Strong
The feud which started in "This Is My Affair," and got going in fine style in "Battle of Broadway," developed into a trans-Atlantic junket when Victor McLaglen and Brian Donlevy traveled to Britain to make "We're Going to Be Rich."

As usual, all the trouble between Vic and Brian is predicated on the fact that they always are "cherchez" the same "femme." In "We're Going to Be Rich," an entirely new world of "frontier life" (in Australia and South Africa) forms the background of a stirring story of rugged life in the far corners of the world of the "eighties."

The second half of the bill gives George O'Brien an action role of the type that has won him a large following. The picture is "Border

G-Man," in which Laraine Johnson has the leading feminine part. Other players who have important supporting roles are Ray Whitney, singing cowpuncher, John Miljan, as the scheming leader of the smuggling band; Rita La Roy as his alluring assistant, and Edgar Dearing, William Stelling, Egan Laidlaw and Edward Keane.

Hunts Smugglers
As a federal agent, O'Brien receives a dangerous assignment to crack down on a gang of smugglers shipping arms, munitions, men and horses to a foreign nation in violation of this country's neutrality laws.

The band operates from a ranch located on the gulf coast of Texas and their shipments are made from a nearby cove owned by a United States senator, whose son is unwittingly involved in the plot.

How O'Brien manages to round up the entire gang after a series of exciting gun fights and rough-and-tumble battles, furnishes a smashing climax.

AUDITOR PLANS RELIEF MACHINE

lards in payment for rent on houses occupied by relief clients, and creating a nine-member commission to study relief and unemployment and recommend a more permanent program to the governor by the end of the year.

Other relief and semi-relief bills approved permit subdivisions not handling relief to transfer funds to those aiding the needy, facilitate issuance of public works bonds, and permit issuance of notes in anticipation of delinquent tax collections.

May Issue Bonds
Under a measure enacted three weeks ago, additional funds for matching of state money may be obtained in issuance of bonds against delinquent tax collections. It was estimated by Sen. Keith Lawrence (D-Cuyahoga), its author, to yield \$32,000,000.

While the administrative measure gives the director wide power over the counties' handling of relief, it also sets up a board of appeals, composed of the state auditor, state treasurer and superintendent of the budget, to which local governments can appeal any rulings.

The cost of administering relief is confined by the measure to 12 per cent of total expenditures.

Big Silvery Monoplane Completes Hop From Moscow

Stoddard explained they encountered icing conditions over France, compelling them to climb to 15,000 feet. "We were using oxygen tanks part of the time," he said.

The airport was ready for the airmen. Two rooms were set aside for them, one for rest and another for eating. A meal had been ready for hours and the Russians' earnest effort to supply ice water, without which Americans say they cannot live here, kept waiters busy.

For cubes in water glasses on the luncheon table had been renewed no less than six times while the newcomers awaited their guests. A crowd of spectators jammed the dining room and watched while the fliers tried to snatch a quick lunch.

Georgi Baldukoff, one of the Russian polar fliers, greeted Hughes with the remark "I'll see you in America," leading to speculation whether he was contemplating another flight soon.

Mikhail Gromoff and Andrei Yumoshoff, others of the polar crew, also were in the crowd.

FDR PUSHING ON INTO COLORADO

Arranges Day of Sight-Seeing and Little Work

(Continued from Page 1)

Adams for the Democratic senatorial nomination said he was rushing to Kansas to be at the bedside of a brother who was undergoing a serious operation.

Won't Take Sides
Beforehand indications were that the President would steer clear on sides-taking, as far as the senate race is concerned, in his Pueblo remarks. Adams, a senate appropriations subcommittee chairman, handles the administration's big relief spending bills.

Hilliard announced his candidacy for the nomination after a White House call.

There was a political tone to the President's train platform talks yesterday and the Amarillo speech. In them he said kind words for Representatives Marvin Jones, Lyndon Johnson, Maury Maverick and W. D. McFarlane all Texans. One of the talks was devoted to giving Gov. James V. Alfred of Texas a federal district judgeship appointment.

With Jones, the house agriculture committee chairman, at his side, Mr. Roosevelt told the Texas panhandle audience at Amarillo that "we need a greater permanency and greater annual security for those who use the soil."

Three Chief Objectives
The President said the administration's agricultural program was not a subsidy and explained that it had three principal objectives:

(1) Proper land use and cultivation.
(2) Prevention of overproduction and low prices.
(3) Decreasing farm tenancy and increasing farm ownership.

After saying the government was endeavoring to "apply common sense business principles to the business of farming and cattle raising," the President returned to his open car, waved and smiled to the hardy souls along the 24-block ride back to his train. Then he changed clothes, had dinner, and started work on the Pueblo speech.

After Pueblo, his train was routed northwestward through the scenic beauties of the Royal Gorge. A sightseeing stop was scheduled for Hanging bridge.

NEW VIOLENCE STIRS TROUBLE

Riots in Ireland, Palestine Add to Disorder Throughout World

(By Associated Press)

Riots in northern Ireland and fresh violence in Palestine added to the world's disorders today as the Spanish civil war and the Chinese-Japanese conflict brought continued destruction and bloodshed.

Japanese warplanes bombed Canton twice, causing an estimated 100 deaths and injuries to 200, and continued to pound the Yangtze river port of Kukiang, which Japanese naval forces were approaching in their drive on Hankow.

Damage Oil Company
Chinese, trying frantically to keep the invaders from landing at Kukiang, were destroying waterfront properties. They blew up two oil tankers and a tugboat.

Company of New York despite vigorous protests of the U. S. Ambassador Nelson T. Johnson, American and British gunboats took most of the foreigners outside the danger zone, but ten American missionaries were reported remaining at Kukiang.

In Spain the insurgent drive through the Ebro mountains on the eastern front was slowed down by desperate government resistance, but the insurgents reported they were in sight of Sagunto, key point on the road to Valencia.

The Spanish government gave the nonintervention committee new worries by dispatching to the British foreign office charges that Premier Mussolini had no intention of carrying out his side of the bargain to withdraw foreign soldiers from Spain.

The note asserted Italy had sent 6,666 infantrymen and 334 aviators into insurgent Spain since the signing of an Anglo-Italian friendship agreement April 16 and that Mussolini intended to take home 10,000 mostly sick soldiers if the nonintervention committee's plan went into effect.

Shots Killed
The Palestine suburb in which 47 Arabs and 24 Jews have been killed since July 5, took the life of the high Moslem holy man, Sheikh Ali Hatib. He was shot down while on his way to the Al-Aqsa Mosque.

The northern Ireland disorders took place at Maghera, Londonderry county, during the observance of the 24th anniversary of the battle of the Boyne in which Dutch-born William III defeated James II.

Police fought a crowd from surrounding districts which marched into the town and tried to remove orange arches erected for the celebration. Three policemen were taken to hospitals with severe wounds and there were several minor casualties in the stamping group. Numerous arrests were made.

INDIANA VOTES AT CONVENTION

Democrats Expected To Renominate Van Nuy By Acclamation

(By Associated Press)

INDIANAPOLIS, July 12.—Indiana Democrats, who made peace with a lukewarm New Dealer in order that they might solidify party ranks to boom U. S. Philippine High Commissioner Paul V. McNutt as a presidential possibility in 1940, were expected to renominate by convention acclamation today U. S. Sen. Frederick Van Nuy.

The last obstacle in Van Nuy's path was removed as Alex Gordon, Indianapolis labor leader, withdrew as a candidate to insure "complete harmony" within the Democratic ranks. Other announced candidates for the nomination had withdrawn previously.

Van Nuy, who fought bitterly President Roosevelt's court enlargement and governmental reorganization bills, permitted his name to be presented to the convention only after he had received a personal invitation from Gov. M. Clifford Townsend, who promised the senator the convention would be "wide open."

Van Nuy had threatened to run as an independent because, he said, the governor had tried to "read him out" of the Democratic party in an address to party editors last summer.

The governor said his remarks had been misinterpreted but other party leaders admitted the harmony move was instigated solely to lengthen McNutt's shadow over the 1940 political horizon.

Among the harmony "die hards" was Van Nuy's colleague, Sen. Sherman Minton, the vociferous New Dealer who said privately he would be "crucified" if his senior colleague were returned to Washington.

Van Nuy, who defeated Republi-

can U. S. Sen. James E. Watson by more than 200,000 votes in 1932, had been at odds with the McNutt state organization and continued his feud with the Townsend administration last year.

Besides a nominee for senator, the 225th convention delegates will choose 12 nominees for state offices.

Hails Steel Move As Unprecedented

CAMP DAVIS, Pa., July 12.—Reduction of steel prices without a compensating reduction in wages was hailed as "something new" that "has left the business world gasping," by the Rev. Father Carl P. Hensler of Pittsburgh, addressing delegates to the First CIO Steel Workers Organizing Committee "school."

"It is generally taken for granted by our industrialists," Father Hensler said last night at this western Pennsylvania mountaintop camp "that if prices are reduced, wages naturally also must be reduced; that if wages are increased, prices also should be increased."

Advocating that future contracts between the CIO and industries contain provisions covering prices and production, the priest declared that workers must "have a say in determining prices and production policies."

The 105 "students" at the "school" were shown motion pictures of the 1937 Chicago riot during the evening program. The "students" came from Pennsylvania, Ohio, West Virginia, Kentucky, Maryland and New York to learn unionization methods and policy.

Poor Advertising

MARION, Ill.—A tavern proprietor started a gambling crusade—advertently.

He distributed pamphlets claiming that his games were "honest" and that "new dice in sealed containers were available on demand." Sheriff Zollie Carter immediately ordered gaming tables removed from all taverns.
